

RISK-ASSESS YOUR WORK PREVENTION IS BETTER THAN CURE

HIERARCHY OF CONTROL

MOST EFFECTIVE

ELIMINATION

Remove/avoid the risk from activity, process, and area

SUBSTITUTION

Do the task in a better and safer way to effectively reduce the risk

ISOLATION

Restrict access to operations area

ENGINEERING CONTROL

Use machine guards, enclosure of hazards, local exhaust ventilation

ADMINISTRATIVE CONTROL

Conduct trainings, supervise your team, use permit-to-work system and job rotation

STANDARD OPERATING PROCEDURES

Advise on the safest possible way a task is to be performed

PERSONAL PROTECTIVE EQUIPMENT

Wear safety shoes, cover-all, goggles, hand gloves, helmet, etc.

LEAST EFFECTIVE
